LATEST RANGE OF STAINLESS STEEL 4X4
AND SUV VEHICLE ACCESSORIES

ABOUT ARTAV

Artav Stainless Steel was formed in 2007 and has dedicated itself to the manufacturing of high-quality Stainless Steel 4x4 and SUV accessories. Formed by the same owners that introduced the first Stainless Steel accessories into South Africa, this company comes with a combined experience of over 60 years in Stainless Steel vehicle accessory manufacturing.

This experience, coupled with the drive to incorporate technology into the manufacturing process, has resulted in the most advanced Stainless Steel accessory plant in Africa for 4x4 & SUV accessories.

Artav Stainless Steel prides itself on being the only automated manufacturing plant to incorporate CNC & Robotic technology in both bending, cutting, welding and polishing.

Started as a family business, Artav Stainless Steel has a passion for vehicle accessories and prides itself on a range of over 600 products catering for every major brand of LCV and SUV.

Through an established network of Artav-Approved Fitment Partners who can draw from three warehouses nationally, Artav Stainless Steel guarantees the best quality, value for money and service to its customers.

This is all backed by our drive for quality and testing which ensures every Artav Accessory undergoes some of the following tests, depending on product type;

- Air Bag Compatibility
- 100 000km Endurance Testing
- Load Testing
- SABS Towbar Testing
- Salt Spray Testing

We aim to provide the best in local South African manufactured accessories that will put our customers' protection upfront.

QUALITY & GUARANTEE

5-YEAR WARRANTY

Our products are proudly manufactured in South Africa according to ISO 9001 standards, and come with a 5-year warranty!

100 000 KM ENDURANCE TESTING

Our 100 000km endurance test determines that there will be no defects to the product over the warranty period.

OEM-QUALITY

All our products maintain the highest level of quality within the SA market for OEM products.

AUTOMATED MANUFACTURING

All our products are manufactured using automated technology, which allows for high-quality stainless steel accessories!

AIRBAG TESTING

We make use of the leading testing facility in Australia to test our nudge bars for airbag compatibility. This is to verify that the bar and brackets will have no negative effect on the airbag systems.
